W3OK Corral NEWSLETTER

OCTOBER 2000

DLARC MEETING OCTOBER 4th at IU20

Airport Communications

by Rich, KB3DEC program chairman

The speaker at the October meeting at the IU20 building will be Bill Steincamp, of the ABE Airport. He will discuss the various type of communications used there, as well as what happens if there is an emergency.

Remember we now meet at the IU20 building in Palmer Township. 7:30, Wednesday, October 4th..Great meeting place plenty of parking without walking for miles. ***de Rich, KB3DEC***

Emergency Exercise 11/4/00

From: Nick Tylenda, Emergency Management Director Northampton County

We are planning on conducting a full scale disaster exercise, with victims, on **Saturday November 4** at the **Ashland Chemical Plant in Glendon Borough.**

Victims will be triaged and transported to Easton Hospital, where they will be evaluated and "treated". The exercise is designed to test both Ashland's and the Hospital's emergency plans, along with the local emergency services.

We are anticipating that the exercise will begin at **0900 hours** and should conclude by **noon.** A critique and lunch at Ashland will follow. I would appreciate if your organization could assist with this exercise.

Complete details will follow shortly.

Thank you

Nick Tylenda

Let **Dick / KA3MOU or Jeff / N3QZT** know if you can help with this drill.

New Location for meetings

New Meeting Location: IU20 (Tatamy)

by Bob, KE3AW

From the south: Route 22, exit at 25th Street exit in Easton. Take Route248 West towards Nazareth. Turn right at Park Avenue (Palmer Mall), which turns into Tatamy Road. Follow Tatamy Road to Danforth Drive (Palmer Industrial Park). Make a left onto Danforth and go to the corner of Danforth and McFadden. Intermediate Unit is located on the left side.

From the north: Route 33 to Stockertown Exit. Turn left. At the traffic light turn right onto Main Street (Route 115). At Widow Brown's Inn turn right onto Bushkill Street. Continue straight to four-way stop (blinker lights) in Tatamy. Go straight through the light and make the first right onto Danforth Drive (Palmer Industrial Park). Go to the corner of Danforth and McFadden. Intermediate Unit is located on the left side.

From the west: (Nazareth) - Take 248 towards Easton to VanBuren Road. Turn left onto VanBuren Road. At the second stop sign turn right onto Newlin's Mill Road. Turn left onto McFadden Road (Palmer Industrial Park). Follow McFadden to Danforth Drive. Intermediate Unit is located on the right side.

From the east: Take Route 22, exit at Route 248 (25th Street exit in Easton) to Park Avenue. Follow "From south" directions.

Lets try to get a big group at this meeting...

Secretary's Report for 07Sep2000

by Jim, N3DFF, Secretary

The meeting was called to order at 07:37 PM by President Don Reamer. This month's meeting was held in the Intermediate Unit 20 in Tatamy.

The Meeting Minutes from last month were accepted on a motion from Clarence, W3PYF with a second from Eddie, W3APE. Bill, K3ANS asked for a correction to last month's correction to change the call sign reported as KB3LAM to KA3LAM.

The Treasurer's Report, shown elsewhere in the newsletter, was accepted on a motion from Bill, N2DH with a second from Walt, KE3SP. The attendance tonight was 37.

Barry, N3NVA reported that Don has some compact receivers he's modifying for use with the voter. Barry will install the voter on top of some of our other equipment.

Bob, KE3AW is preparing the walls in the Milk House for the painting party on Sept.9.

Clarence, W3PYF suggested we publish the results of the VE sessions in the club newsletter.

The club welcomed three visitors, Milton, a guest of Dave, N3LWY; Tom McDonald; and Bruce, KB3FIH. **Bryan Williams, KB3EVX** was voted in as a new member on a motion from Dick, KA3MOU with a second from Bill, N2DH.

Charlie, N3VUO received a certificate for chairing the Red Cross River Run event.

Clarence, W3PYF received a chevron for 52 years as the Northampton Radio Coordinator. This award is designed to attach to his plaque for 50 years of service to the club.

With the PA QSO Party scheduled for Oct. 14 and 15, Bill, KA3ANS noted the number of complimentary emails he's seen on the PA QSO reflector regarding Don's logging program.

New meeting location. Don received only one response to his discussion about the move in the Prez Sez column. No further discussion was made at this meeting, so the motion to move the location was put to a vote and passed.

Chris, NU3L suggested that we track meeting attendance to see if it changes significantly as a result.

Bill, N2DH asked if we would consider moving the VE sessions to IU 20 as well. He felt this facility may be more convenient than Gracedale. Bill Broad agreed to look into the feasibility.

New Business:

An email reflector for the club was established by Don on www.qth.net. This facility will allow an email message to be sent to all members who sign up. The service is free and expected to help club members communicate. To sign up, send an email to Majordomo@qth.net and put "subscribe dlarcforum" (without the quotation marks) in the body of the message. You should receive and automatic reply with further instructions.

DLARC is in the ARRL Special Services Spotlight this month.

Don announced that we need a Program Chairman for next year. Anyone interested is encouraged to talk to Don.

Club elections will be held next month. Bill, N2DH chaired the nominating committee that also included Blair, K3YD and Bill N3CP. The slate for next month is

President Don Reamer, KA3JWE Vice President Jeff Keller, N3QZT Treasurer Dick Dech, KA3MOU

Board Members:

Al Krensavage, WO4H Glenn Brodt, N3ULW Bob Green, KE3AW Joe Chuk, W3JD Barry Vogt, N3NVA Dave, N3EYT

For the office of Secretary, there are two nominations:

Jill Brodt, N3ZSR Bryan Williams, KB3EVX

The floor was opened for additional nominations. No more were received. The nominations were closed on a motion from Glenn, N3ULW with a second from Charlie, N3VUO.

Clarence requested more material from members for the club newsletter. Anyone wishing to write up an article, please forward it to Clarence. He noted that previous articles on "Why I Got Into Ham Radio" were well recieved.

The business meeting was adjourned on a motion from Dick, KA3MOU with a second from Bob, N3QZR.

-- respectfully submitted, Jim N3DFF

The Prez Sez

by Don, KA3JWE, president

The days are getting shorter, the air is getting cooler, the leaves will be changing color shortly and the **PA QSO Party** is only a few days away.

The PA QSO Party is one of those contests that is easy on the operator. You can actually get a good night's sleep and still be competitive. The first day starts at noon on Saturday, October 14th, and stops at 1:00 AM Sunday morning. The second day starts at 9:00 AM Sunday morning and ends at 6:00 PM. If you live in PA, your goal is to make as many contacts as possible with stations in all of the 67 PA counties and 85 ARRL/RAC sections. The best part is that everyone is trying to work you, especially the non-PA stations. It's a fun contest and I urge all of you to give it a try. If you don't have a station of your own, ask around and I'm sure that you can find someone who will be glad to let you operate with them. If you haven't tried contesting because you think that it's too difficult to log and keep track of duplicate contacts then you're missing out on a lot of fun. If you have a computer, you can download FREE software that will do everything but type in the information for you. I have written a Windows program that you can download from my web page if you want.

*19180wk

The URL is **http://www.enter.net/~donster** . You can find other software and information on the PA QSO Party on their web page at http://www.qsl.net/narc/paqso.htm . So, give it a try and have some fun. I hope to hear you on the air.

Last month I asked for comments from members regarding moving the meeting location from the college to I.U. 20 and stating the reasons for the proposed change. I only received one comment concerning the additional travel time for those who live on the edges of our territory. Other comments were supportive of the move. We put the issue to a vote at the September meeting and it was unanimously approved by the attending members to change the meeting location to the I.U. 20 school in Tatamy. It is a wonderful facility and I hope that those who have not attended a meeting recently will give it a try.

de Don, KA3JWE

Special Service Club Spotlight

by Don, KA3JWE

Our Club, **The Delaware-Lehigh Amateur Radio Club** has been recognized by the ARRL on their Special Service Club Spotlight web page. They had asked for information on the Club for the purpose of highlighting our achievements and activities and to promote our Club to the national and international community. Clubs are honored for a two week period, so by the time you read this we might not be the Club with primary focus.

However, you can still see our Spotlight page as well as other club's pages that were previously featured. The web address to visit the ARRL Special Service Club Spotlight is: **http://www.arrl.org/field/club/sscspot/**

DLARC demo stations
A few members needed

by Bob, KE3AW

Sunday, October 8 is the date for the Nazareth Science Fest 2000 at the Bushkill Township School, Nazareth.

DLARC plans to have HF, VHF, and UHF stations in operation in this science exhibit. The more members willing to help, the more we can demonstrate different features of amateur radio; perhaps even interest some prospective hams!

We want to have kids and parents make third-party transmissions, as well as answer questions about amateur radio. No conflict this year with the PAQSO party weekend.

We'll need a morning crew to set up the stations, operators for demos with children and parents, and a takedown group in late afternoon.

Events like these are successful only if DLARC members participate!

If interested, contact me by phone, radio or e-mail ke3aw@juno.com.

de Bob,KE3AW

MARS

by John, WX3W

Assistant to the Director for Public Affairs and Newsletter,Region One
Pennsylvania Area Assistant for Emergency Communications

Now that you finally got that upgrade to General, what are you going to do? Does passing emergency communications interest you? Does providing auxiliary or emergency communications on a local, national, and international basis as a secondary to normal communications interest you?

If any of the above sparks an interest, why not join the Military Affiliate Radio System (MARS). MARS is a Department of Defense (DOD) sponsored program, established as separately managed and operated programs by the Navy-Marine Corps, Army, and Air Force. The primary concept of MARS is to meet the requirements of training for any communications emergency.

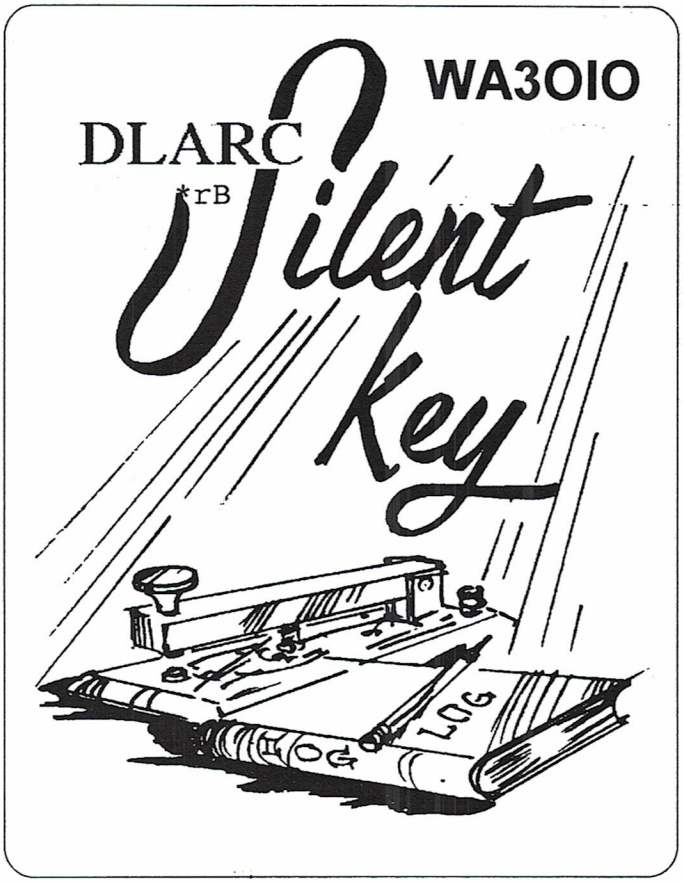
Since I'm a member of the Navy-Marine Corps MARS (NAVMARCORMARS), I can only speak for that program. NAVMARCORMARS has been given the undertaking by the DOD to provide information in the event of a disaster. This is accomplished with a pro-forma message called Essential Elements of Information (EEI).

The MARS member should report any event he or she believes might be an interest at the national level. It's always better to report on too many
events rather than miss one. These messages are sent to Chief, NAVMARCORMARS who will sort things out and send it to DOD.

If you're interested in MARS and have any questions, feel free to contact me and I'll try to answer them. You can get on the Internet and check out some of the MARS webpages. The Navy-Marine Corps page is **at http://navymars.org,**
Air Force page is http://public.afca.scott.af.mil/public/mars1.htm, and the
Army page is **http://www.asc.army.mil/mars.** Pennsylvania NAVMARCORMARS has its own page at **http://pages.prodigy.net/bill_freiler/mars.htm.**

Check the pages out and see if it doesn't perk a new interest in Amateur Radio.

de John Holmes, WX3W
NNN0VJN/NNN0GCP TWO/NNN0ASI EIGHT



John J. Correll, WA3OIO; 85, of Bushkill Township, died Friday, July 28, in the Eastwood Nursing and Rehabilitation Center, Wilson. He was the husband of Elizabeth E. (Rice) Correll who died in 1991.

He was employed at ESSROC, Nazareth, for 31 years as a plumbing and electrical technician before retiring in 1979. Previously he was a plumber for William Shook, Nazareth.

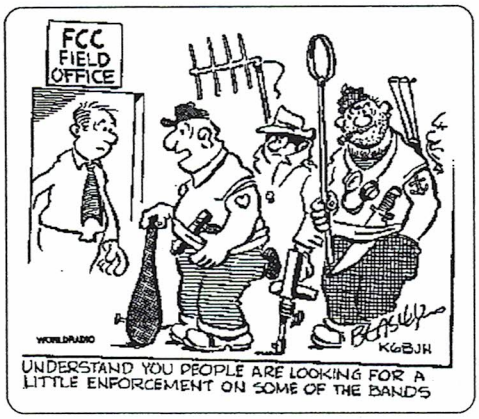
Born in Bushkill Township, he was a son of the late Robert E. and May K.(Snyder) Correll Sr. He was an Army Air Corps veteran.

Survivors: Sister, Elizabeth M. Frable of Nazareth; brothers, William C. of Nazareth, Robert E. Jr. of Hecktown; nieces and nephews.

Why not make it a habit to call in on the ARES, RACES nets that are held on Wednesday nights. 146.70 @ 7:00 pm. Get to know what is going on in our club and other activities.

HOLLINGSWORTH SUGGESTS STEPS TO BRIGHTER AMATEUR FUTURE

Looking "beyond enforcement," FCC Special Counsel for Amateur Radio Enforcement Riley Hollingsworth, K4ZDH, has offered his ten personal suggestions to secure a sound future for Amateur Radio.



Speaking at the ARRL New England Division Convention August 26 in Boxboro, Massachusetts, Hollingsworth recapped the nearly two years since he took over Amateur Radio enforcement. Hollingsworth proclaimed the Amateur Service "fundamentally sound" today and said complaints now are decreasing.

With some major enforcement issues out of the way, Hollingsworth encouraged amateurs to "seize the moment" to ensure a bright future for Amateur Radio. "Look beyond enforcement," he urged, "because if I do my job right, in five years you won't even remember my name." Hollingsworth said that while no one can predict the future, amateurs must invent theirs in an era of converging digital and RF technology.

And he reiterated a phrase that has become a Hollingsworth mantra: "There is no reason why our Amateur Radio Service can't be the envy of the rest of the world." Getting there, he suggested, comes with each amateur's taking responsibility for his or her behavior on the air. Amateurs should encourage arrogant, negative operators to "take their anger and hate to the Internet," he said. "Every minute they are on the Internet is a minute they aren't on Amateur Radio."

Among other suggestions, Hollingsworth said hams should be proud of what they have accomplished. "Let the public know what you are, what Amateur Radio is, and why it's valuable," he said. He also urged hams to "operate as if the whole world is listening" and to never let ham radio "become the audio version of the The Jerry Springer Show."

He also called upon veteran hams to take newcomers under their wing and teach them "all you know" about the hobby.

Hollingsworth also expressed his support for the ARRL, which has backed his enforcement initiative on behalf of the FCC. "Take care of the one voice you have," he advised. "You must never doubt that a small group of dedicated people can change the world. They just did."

"Enjoy ham radio," Hollingsworth told his audience. "Celebrate it. But realize it comes with responsibility."

The ARRL Letter

PA QSO party coming up

by Ray, W3TDF

The PA QSO Party is scheduled for the 2nd full weekend of October, that's the **14th & 15th.**

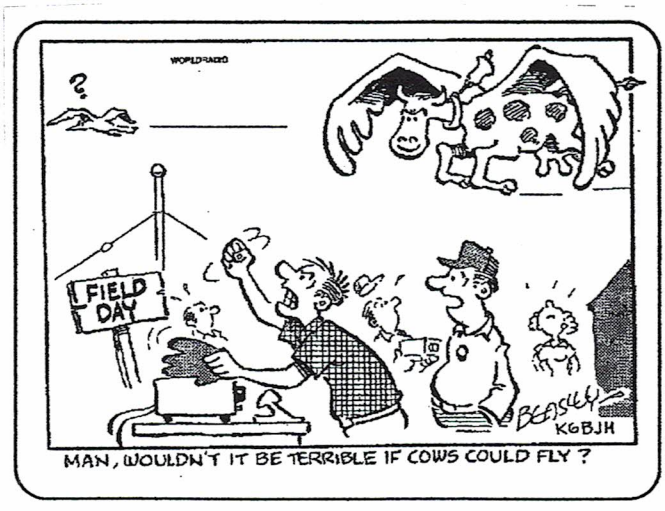
The Delaware-Lehigh Amateur Radio Club lost the State Trophy last year and with your indulgence we could get it back. Please try to work it into your itinerary of important things to attend to.

Saturday times; 1600z 14th to 0500z 15th
12 Noon EDST to 0100 EDST Sun

Sunday times; 1300z 15th to 2200z 15th
0900 EDST to 1800 EDST (6:00PM)

Our club needs your score, so, please, try to make a bunch of points.

Thanks de The Grump, W3TDF



RF Safety rules now in force for all amateurs

The time has come! Starting Friday, September 1, every US amateur was required to fully comply with the FCC's RF exposure guidelines.

The regulations, which went into effect January 1, 1998, require US Amateur Radio operators to read and understand the rules and, where necessary, perform technical evaluations to determine that their stations are compliant with the new regulations. Up until now, only hams who have had to file an Amateur Radio application with the FCC have had to certify compliance with the RF exposure rules. As of September 1, all amateurs must comply.

Under the regulations, an amateur station must not exceed the maximum permissible exposure limits for transmitter operation. MPEs are both frequency and power-dependent.

"These regulations are not a major burden on the Amateur Radio Service," said ARRL Lab Supervisor Ed Hare, W1RFI, the League's point man on RF exposure issues. "Most hams are already in compliance with the MPE requirements; some hams will need to conduct a simple station evaluation."

By and large, the FCC has put hams on the honor system, but compliance with the RF exposure rules is not optional.

"Even aside from the fact that every US amateur is required to follow the RF safety regulations, amateurs owe it to themselves, their families, their neighbors, and the general public to follow the FCC guidelines to the letter," said ARRL Pacific Division Director Jim Maxwell, W6CF, in urging compliance.

A complete description of the rules is available on the ARRL Web site at **http://www.arrl.org/news/rfsafety/.**

The site also contains resources to make your station evaluation quite painless.

The topic of RF exposure and safety also has been covered extensively in QST (see "FCC RF-Exposure Regulations--the Station Evaluation" by Ed Hare, W1RFI, January 1998 QST). Hare also wrote the standard Amateur Radio reference on the topic of RF exposure, RF Exposure and You, published by the ARRL. The book is aimed at answering all questions about meeting the FCC RF exposure regulations. It includes simple step-by-step worksheets for hams to use to help determine if their stations comply with the rules--and, if not, how to correct the problem. (RF Exposure and You is $15. Order item #6621 from ARRL.)

Address questions about RF safety and the FCC exposure guidelines to ARRL Lab Supervisor Ed Hare, **W1RFI, ehare@arrl.org..**

The ARRL Letter

A few deep thoughts

submitted by Val, W3EFL

* A bus station is where a bus stops. A train station is where train stops. On my desk, I have a work station...

* If quitters never win, and winners never quit, what fool came up with "quit while you're ahead"?

* I was thinking about how people seem to read the Bible whole lot more as they get older, then it dawned on me. they were cramming for their finals.

* I thought about how mothers feed their babies with little tiny spoons and forks, so I wonder what Chinese mothers use...Toothpicks?

* Why do they put pictures of criminals up in the Post Office? What are we supposed to do...write to these men? Why don't they just put their pictures on the postage stamps so the mailmen could look for them while they delivered the mail?

* How much deeper would oceans be if sponges didn't live there?

* If it's true that we are here to help others, then what exactly are the OTHERS here for?

* Go ahead and take risks....just be sure that everything will turn out OK.

* If you can't be kind, at least have the decency to be vague.

* Ever wonder what the speed of lightning would be if it didn't zigzag?

* Nostalgia isn't what it used to be.

* How come you don't ever hear about gruntled employees? And who has been dissing them anyhow?

* Since light travels faster than sound, isn't that why people appear bright until you hear them speak?

* How come "abbreviated" is such a long word?

* If it's zero degrees outside today and it's supposed to be twice as cold tomorrow, how cold is it going to be?

RF SAFETY RULES NOW IN FORCE FOR ALL AMATEURS

The time has come! It started Friday, September 1, every US amateur was required to fully comply with the FCC's RF exposure guidelines.

The regulations, which went into effect January 1, 1998, require US Amateur Radio operators to read and understand the rules and, where necessary, perform technical evaluations to determine that their stations are compliant with the new regulations. DLARC in parade Emmaus Halloween parate October 21

by Bob, KE3AW

Amateur Radio Operators will be needed again this year for the Emmaus Halloween Parade on Saturday evening, October 21.

DLARC has been providing the radio contact along the parade route for many years -- our assistance has helped make the parade the success it annually is.

We'll need about 15 amateur radio operators for the 21st. The only requirements are that you have a vehicle (which will be in the parade), a 2 meter radio, and interest in helping in a public service activity.

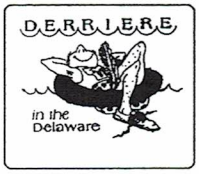
We plan to hold our traditional "Dutch Treat" visit to a local restaurant after the parade.

Please contact Bob/KE3AW (ke3aw@juno.com), by phone, radio, etc., at your earliest convenience if you are interested. It's a fun time and provides a valuable community service.

de Bob,KE3AW

To DLARC members

Just a short note of Thanks for a huge, long commitment to community service, and especially to the Derriere in the Delaware float. Without the club's participation and support, the Red Cross (in years past) and the **Kiwanis Clubs of Easton and Phillipsburg** would not rest as easy as with you at our side. I hope that your club success continues far into the new century.



Thanks again,

Lach Peeke (Easton)

Doug Atherton (P'burg)

Gallop in the Gap -100 mile bicycle marathon

by Jeff, N3QZT

Early on September 10th, a Sunday, a small group of hams got together on the Northampton County Community College campus. The purpose of the gathering was not to discuss the latest Ham news; it was to provide communications and logistic support for the annual 100 mile bike ride that the Lehigh Valley Wheelman club has every year at this time. We manned three checkpoints, followed the SAG / support vehicle and set up a net control location.

The event consisted of various length routes that the bikers could take i.e.: 25 mile, 50 mile, 75 mile and 100 mile. The event started at 7:00am and was over at 4:00pm. About 250 riders took place in the event. The Hams helped out by connecting via radio the rest stops, the SAG / support truck and the start finish line. The Lehigh Wheelman has tried in the past few years to do this by using "cell phones" but found the coverage to inconsistent.

I want to thank all of the Hams that helped with this event I think all involved went way beyond the call of what we normally do at an event, this included things like getting water for the rest stops and even using personal vehicles to follow the bikers. One of the big criticisms of the club as of late has been to difficulty in getting members to help out at events, but with only one week notice 10 Hams came out to help at this event. Thanks

Here are the Hams that helped out:

Bruce / KB3FIH, Barry / N3NVA, Malcolm / N3XRL, Charlie / KE3NN, Brad / KA1RAH (he rode with WA1LLD), Mitch / WA1LLD, Dave / W3AMC, Bob / KE3AW, Blair/ K3YD, Rich / KB3DEC, Bruce / KA3ONZ (on stand by), and me Jeff / N3QZT..

Weather test for Northampton County

by Dick, KA3MOU

Thanks to all stations that helped with the Emergency (Disaster) Exercise on September 11, 2000.

The Exercise went from 7:00 PM. To 7:40 PM. **Jeff N3QZT**, was at Gracedale as Net Control. **Bob N3OLH** was at 911 Center. Other Stations that were helping with the drill at Gracedale; **Glenn N3ULE, Bob N3QZR, Dave WD5BRP, Bruce KB3FIH, Bryan KB3FGL, Bob N3SNZ, Chris N3SIG and Curt KA3MOB.** The 911 Center also had traffic for Net Control Operator **Jeff N3QZT. Glenn N3ULW** passed some weather traffic to Net Control and Operators on Gracedale grounds. The club's repeater 146.700 was in use for the drill. I would like to thank all club members who helped with this drill.

de, Dick, KA3MOU

2000 Picnic in review;

by Jeff, N3QZT

This year we had just about picture perfect weather for the annual club picnic. The weather plus great food and lots of club members and their families made for a wonderful day. About 50 people attended the event. We had a variety of different foods to choose from including hamburgers and hotdogs, corn on the cob, potato and macaroni salad, many different cheese and vegetable trays, and of course plenty of delicious deserts.

It was a warm day that passed quickly as some spent time catching up on the year gone by with friends, while others enjoyed a game of chess. And I don't want to forget about what has become an annual tradition at the picnic and that's the horseshoe competition.

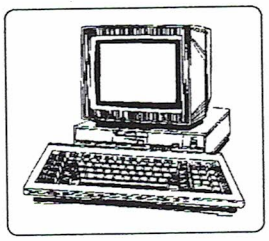
Many people played but four teams provided the main competition. Those teams consisted of WD8SCX/N3XRL, N3NVA/KA3JWE, W3TDF/WX3C, and N3GXW/Craig (harmonic of KB3FIH). I am told that the horseshoes were flying and the games were tough, but in the end the team of N3NVA/KA3JWE came out on top.

I want to thank all the hams (and family members) that helped make this years picnic a special one. A special thanks to **Glenn/N3ULW** and **Jill/N3ZSR** for helping as Co Chairman with the picnic.

de Jeff N3QZT

DLARCForum

DLARCForum is the new email reflector that has been established for the members and friends of the **Delaware-Lehigh Amateur Radio Club.** Although RF should be the mode of choice considering our hobby, the D.L.A.R.C. has established an email reflector to allow members to communicate with each other more easily. I hope that this will help members exchange information, comments, suggestions and ideas more easily.



To subscribe send an email:

To: **Majordomo@qth.net Subject:**
Body: **subscribe dlarcforum**

You will get an answer back containing a confirmation number like this: auth 6b93au31 subscribe dlarcforum EmailAddress@ISP.net
Send a reply back using the whole confirmation line like this:

To: **Majordomo@qth.net Subject:**
Body: **auth 6b93au31 subscribe dlarcforum EmailAddress@ISP.net**

You will then get a message stating that you have subscribed and you will get another message with instructions explaining the commands used to operate the mailing list.

Remember - All messages sent to dlarcforum@qth.net must be in PLAIN TEXT format. Rich Text or HTML formatted messages will not go through.

Easton EMS Squad wants to work withDLARC

by Charlie N3VUO

EASTON EMERGENCY MEDICAL SERVICES SQUAD wants to work with the D.L.A.R.C. during the 11th annual American Red Cross Lehigh River Relay Run on July 15,2001.

Over the next few months EASTON EMERGENCY MEDICAL SERVICES SQUAD and the D.L.A.R.C. will know to get know each other through a series of meetings. This opportunity will enable one city emergency medical services squad to learn about the resources and the talents of the amateur radio community.

The Lehigh Valley chapter of the American Red Cross supports and endorses this opportunity for these two organizations to have a working relationship and enhace their services to the Lehigh Valley community.

de Charlie N3VUO
